ARTICLE HONORS D. A. ZAVALISHIN, SOVIET SCIENTIST

V. M. Rokotyan, P. T. Belousov,
 K. I. Pyartman, and I. A. Safronov

Dmitriy Aleksandrovich Zavalishin was born in April 1900 in Leningrad. In 1925, he graduated from the electromechanical faculty of the Leningrad Polytechnic Institute imeni Kalinin and remained in the institute to teach in the chair of electric machines. Simultaneously, he took part as a senior scientific associate in the work of the State Physicotechnical Laboratory (1925 - 1930). In 1930, he was appointed docent of the chair of electric machines, Leningrad Electromechanical Institute, and in 1931, professor of the Leningrad Institute for Mechanization and Electrification of Agriculture, chair of electric machines.

In 1934, Zavalishin was professor of the Leningrad Industrial Institute (formerly LPI), while continuing his work as head of the chair of electric machines in the Leningrad Electrical Engineering Institute of Communications.

In 1940, he was awarded the scientific degree of Doctor of Technical Sciences.

From 1939 to 1941, Zavalishin worked as head of the chair of electric machines at the Military Electrical Academy, and from 1942 to the present, he has been working in the system of higher naval schools, giving all his time to the training of engineers for the Soviet Navy.

He has written several textbooks and manuals on electrical machines and ionic converters. About 20 of his scientific works have been published at various times in Elektrichestvo and other journals. He has taken an active part in promoting cooperation between scientific and production workers, having been one of the initiators of this movement in Leningrad.
